

# QuiltNebraska 2009

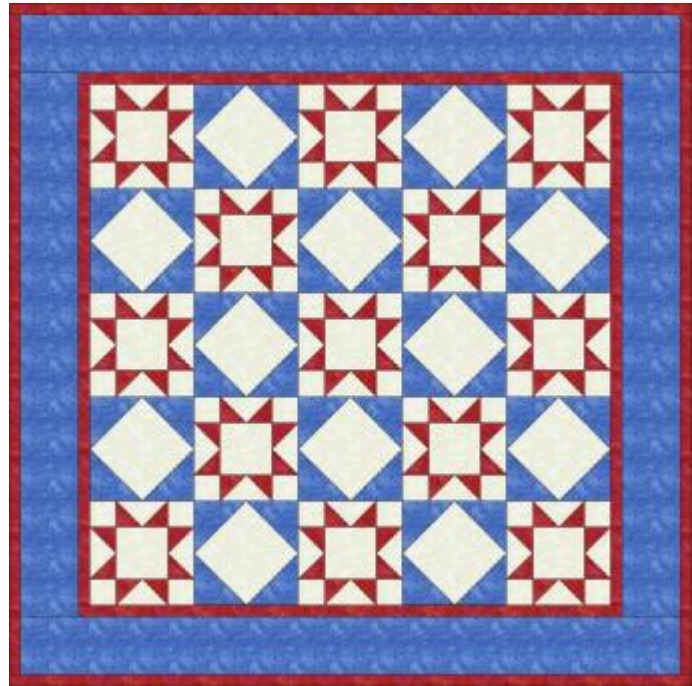

**FAM31 (Friday AM) or**

**SAM59 (Saturday AM)**

**Andrea Bishop**

## **Electric Quilt 6 Basics**

Do you want to EQ and don't know how? This is the class for you. We'll start from scratch and cover the basics of Electric Quilt 6 software. We will learn how designing, coloring, drawing, saving, and printing work. We will make a few quilts and blocks, and then see what our patterns look like. By the end of this class you will have the skills to create and print designs of your own.

## **Supplies:**

Laptop with Electric Quilt 6 software installed and activated

Printer or printer driver installed (do not bring the printer to class)

External Mouse recommended

Pen/Pencil

EQ6 User Manual
