Demystifying Paper Piecing

Skill Level: Beginner

It may be counter-intuitive, but it's not rocket science, and there are sure-fire techniques to make sure your paper pieced pattern turns out beautifully – and doesn't waste fabric! We will create a small paper-pieced tree design using the sewing machine.

Supplies:

3 different green fabrics (12" square of each)

12" square black background fabric

Scrap of dark brown (for tree trunk)

Paper scissors

Small plexiglass ruler with definite 1/4" marking (no larger than 6x12")

Rotary cutter & cutting mat

Neutral thread

a few pins.
