Friday Afternoon Class

FPM41

Andrea Bishop

ELECTRIC QUILT 6 DRAWING

Want to create your own block designs? In this Electric Quilt 6 software class we'll learn to draw both pieced and appliqué designs. For the pieced portion, we will start simple and edit existing blocks like the Ohio Star or Four Patch. Then we will move into drawing Lone Stars and New York Beauties. For the appliqué portion, we will start with drawing a simple flower, then learn how to turn it into an elaborate wreath with threadwork around it. The drawing tools covered will unlock a whole new world of design possibilities for you.

Supplies:

Laptop with Electric Quilt 6 software installed and activated

Printer or printer driver installed (do not bring the printer to class)

External Mouse recommended

Pen/Pencil

EQ6 User Manual
