Art Tote

Using a simple pattern that can be seen as a canvas for painting, collage or piecing called "The Art Tote", students will construct a bag. This class can also include any of the other bags designed by epb. Those patterns as well as "The Art Tote" are available through quilt shops or on line at www.epbdolls.com. The Art Tote pattern requirement list varies with the student choices of treatment for the 5/8yd "canvas" part of the bag. To create a painted surface use stabilized fabric by Jacquard (available at www.epbdolls.com), For a pieced surface bring selected fabrics to piece or "orphan blocks", for collage bring a selection of fabrics, trims and buttons and beads. The remaining requirements are on the pattern for the tote. The other bags of elinor's design have the materials list on the back of the pattern. Machine required

GENERAL ORIENTATION FOR TAKING A CLASS

1. When taking a class with elinor that is based on a pattern, purchase the pattern and read it through. Check for the areas that you have questions. Cut out copy or trace off the pattern. The materials list for the class is on the back of your pattern.
2. Select or purchase the materials called for in the pattern.
3. Bring basic sewing supplies.
4. If a sewing machine is required to make the pattern bring one that you are in charge of.
5. One of the ways to make class more productive for you is to bring your journals, sketch books, samples of your work, or photos. When an instructor can see your work she is better able to focus on your expectations for the class.
