

QuiltNebraska 2009

Saturday All Day Class

SAD53

Barbara Caron

COLOR & ILLUSION

All Levels

Carefully manage light, medium, and dark values to produce the illusion of three-dimensionality. Gain the confidence to work with many different fabrics by creating a quilt consisting primarily of 60-degree diamonds. Hand-piecing recommended. Several of the designs appear in Barbara's book, *Tessellations & Variations* [AQS, 1995]

Supplies:

For overall designs: Bring a wide variety of print fabrics. Scraps as small as 5-6" square are fine. One-third of the scraps should be very light, one-third medium, and one-third very dark.

For the Seven Cubes design: Bring 8" squares of solid or print fabric. You will need three values [light, medium, dark] of each color for each of the 7 blocks. The border fabric can be chosen later.

Supplies for either design option:

Flannel or fleece for design wall

Rotary cutter, mat and ruler

Threads to blend with fabrics

Scissors

Marking pencil, needle, thimble

These designs are well-suited to hand-piecing.

If you prefer to machine-piece, bring your own sewing machine.
