### MAPLE LEAF QUILT: MACHINE REVERSE APPLIQUE'

Intermediate – Advanced

Make this stunning maple leaf quilt using a machine reverse appliqué technique—no fusibles are used. This method is great for Hawaiian style quilts, silhouettes, two-fabric cutwork designs, snowflakes or a border of reverse appliqué vines or feathers, and it's faster than hand appliqué.

#### **Supplies:**

Sewing machine with zigzag

Extension cord

Open toe foot

60/8 needle

**Batik Fabrics:** 8 dark 8.5" squares (to learn technique, only 3 squares)

8 light 8.5" squares (to learn technique, only 3 squares)

Prewash before class. Starch until stiff as paper (Use liquid starch diluted 50/50 with water. Spray. Let *almost* dry, then press.)

60/2 fine cotton embroidery thread to match batik fabric

Embellishing thread to contrast—cotton, rayon, variegated

Small curved scissors that cut to the tip.

**Materials Fee: \$5.00** (8 sheets of pre-printed stabilizer)
