BRAZILIAN EMBROIDERY: COMPOSITE CLUSTERS

All Levels

Learn to create beautiful 3-dimensional Brazilian Embroidery. Use a variety of rayon threads to add stunning color to this piece, which features a cast-on flower, miniature roses, leaves, five-petal daisy and bead flowers. Students will learn the history and basic stitches of Brazilian Embroidery (stem stitch, couching stitch, French knots, straight stitch, bullions and cast-on). Students will then proceed into double cast-ons and making tight bullions so they won't twist for the miniature roses. Technical aspects of the stitches will be explained and demonstrated with tips and tricks shared with students.

Kit Fee: \$25.00

The kit includes everything you will need for this class: stamped trigger cloth, prepared threads, beads, detailed instructions, satin box and doodle cloth.
